New Fish in Seven Oaks Pond

Mark Lowe, the architectural committee chair, released ten grass carp (algae eating fish) into the pond at the entrance of Seven Oaks. These new additions will help keep the pond free of algae and clear up the water. Remember, no fishing though!!

The committee is also looking into installing a fountain in the pond and controlling the erosion.

The Christmas season is here and the neighborhood lights look beautiful. Kudos to all of you who are lighting up the addition for the holidays!!

Also, as you may have noticed, several of the vacant lots have been mowed by builders. The builders who have mowed lots are Perry Hood Builders, Shaw Homes and TL Davis Homes. We appreciate these builders helping make the vacant lots look better for the winter season.
